We will have a team here at 10:30, with other stuff scheduled for later. However, we have back to back calls, so, a heads up, we may run a little late. Of course we don't assume you will accommodate our schedule. I hope it works and apologize if it doesn't.

Sure, I could. But, why don't we just do it at 12:30pm or 1pm instead?

Phil,

Not sure why I did not catch this earlier. I will be on the Wetland Program National call from 11 to 12 so I will not be able to be on this training.

Kol,

Are you able to walk folks through the steps?

Thanks

Kol,

Michael and I already talked about this. I am hoping that the two of you can give a quick lesson to the Bristol Bay Technical Team. We will all be meeting in Anchorage on 3/17, so it is a good opportunity to learn together. A couple of people seem to have a good grasp of this kind of software, but others are old timers for whom computers are still a bit of a mystery. After a bit of instruction I am hoping that we can create the files we all need.

I hope this timing works for you.

Phil
